**NORDEN®**

Wireless Active Wall-Mount Speaker 8W

DESCRIPTION

The Wireless Active Wall-Mount Speaker is a sophisticated audio device designed for versatile use in both commercial and residential settings. Featuring an integrated receiver, this wall-mounted speaker offers seamless wireless connectivity, eliminating the need for external equipment. It includes dedicated bass and treble units, ensuring high-quality, clear sound across various audio frequencies. The speaker supports long-distance transmission through a constant voltage power amplifier, providing reliable audio performance over extended ranges. Available in black and white, it complements a range of interior designs while supporting multiple audio sources to cater to diverse needs and occasions.

FEATURES

⊚ Designed for easy wall installation, maximizing space efficiency and providing an integrated audio experience

⊚ Includes a built-in receiver for wireless connectivity, simplifying setup and eliminating the need for external audio equipment

⊚ Equipped with separate bass and treble drivers to ensure clear, high-fidelity sound across all frequencies

⊚ Features a constant voltage power amplifier to maintain audio quality over extended distances

⊚ Available in black and white to seamlessly blend with various decor styles

⊚ Supports a variety of audio sources, making it adaptable for different uses and settings

Specifications	
Model	NVS-11250030MS
Rated power	8W
Max.SPL	100±2dB
Effective frequency range	130Hz-18kHz
Mounting distance	146mm
Frequency response	80Hz - 16kHz (±3dB)
Sensitivity (1m,1w)	90dB ± 2dB
Transmission Frequency	750-759MHz
Transmission Distance	30 (Line Of Sight)
Power Supply	AC 220V/50Hz
Dimension (L× W× H)	195×215×280mm
Weight	1.8KG
