

# Waterproof High Power Column Speaker 120W

## DESCRIPTION

NVS-10840120BS is a weatherproof outdoor column speaker. It has a built-in transformer of 70V/100V. The 70V/100V transformer technique reduces line losses on longer distances and allows easy parallel connection of multiple loudspeakers. The built-in 6.5" x 4 and 1" x 1 five-way speaker drivers are designed for a wide frequency response of 90Hz-16kHz, and the power output of 120W can meet different applications, varying from room size and ambient noise surroundings. Easy and secure wall mount through the mounting hook. This product complies with IEC 268-5 Power Handling Capacity (PHC) standards, which can operate 100 hours successively at rated power. It is an ideal choice for industrial and commercial applications in the indoor area of hotels, schools, airports, railway stations, offices, restaurants, and factories where background music and paging are needed.
